**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 100-139, drawn to a laminate.

Group II, claim 140, drawn to a method of manufacturing a laminate.

Group III, claim 173, drawn to a laminating apparatus.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature of Group I (i.e. the flute direction of B forming an angle from generally about 30 up to and including 90 to the flute direction A) is absent from Groups II and III; and the special technical feature of Group II (i.e. the waved flute structure of the first ply is formed by the use of a grooved roller and the said bonding with the second ply is carried out under heat and pressure and also under use of a grooved roller) is absent from Group I; and the special technical feature of Group II (i.e. first ply has a waved flute configuration and the second ply also is given a waved configuration) is absent from Group III; and the special technical feature of Group III (i.e. means for directing the first and second plies from their respective grooved rollers to a laminating station with the plies

Art Unit: 1794

arranged in face to face contact with one another, the laminating station comprising grooved laminating rollers, the grooved fluting rollers and the grooved laminating rollers having groove pitches) is absent from Groups I and II.

3. A telephone call was made to Robert Strozier on 2/13/2009 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Catherine Simone whose telephone number is (571) 272-1501. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jennifer McNeil can be reached on (571) 272-1540. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
